

PSR/PSRT series Precision Rolled Ball Screws

High accuracy(JIS C5) has been achieved by Rolled Ball Screw. We provide Rolled Ball Screws with high precision & better cost performance, which can be replaced with conventional Ground Ball Screw with C5 grade.

●Features

- The conventional type of Rolled Ball Screws can reach the Accuracy grade of Ct10 or Ct7. KSS newly developed the high grade accuracy of Rolled Ball Screw, which can achieve JIS C5 grade.
- We have 2 types of Precision Rolled Ball Screws, which are Integrated type with larger journal and whole threaded type. So it provides wide variety of design choices.
- For Integrated end-journal type, Fixed side end-journal can be set larger than nominal diameter of Screw Shaft, so there is no need to use Collar by press fit.
- Fixed side End-journal profile and dimension are standardized, so KSS Compact Support-Unit can be installed.
- Since supported-side end-journal is unfinished, it is possible to do additional end machining with your requested thread length.
- Special end-journal profile can be available as customized order.
- Whole threaded type is a high cost performance type and end-journal machining is available in accordance with your request.
- The Axial play is set at 5um or less, but Zero backlash is possible based on your request.

●Variation

We have 2 types of Precision Rolled Ball Screws, which are Integrated type with larger journal(PSRT) and whole threaded length type(PSR).

●Accuracy Grade & Axial play

The grade of PSR/PSRT series(Standardized Precision Rolled Ball Screws) is C5(JIS B 1192-3). Axial play of this series is 0.005mm or less, but zero backlash(pre-load) type is available by your request.

●Material & Surface hardness

The material and hardness of PSR/PSRT series (Standardized Precision Rolled Ball Screws) are as follows.

Products	Material of thread area	Heat treatment	Surface hardness
Precision Rolled Ball Screws (PSR series)	Shaft : S55C	Induction hardening	HRC58 or more
	Nut : SCM415	Carburizing and Quenching	
Precision Rolled Ball Screws with Integrated end-journal (PSRT series)	Shaft : S55C	Induction hardening	HRC58 or more
	Nut : SCM415	Carburizing and Quenching	

●Lubrication

Standardized Precision Rolled Ball Screws whole threaded length type(PSR Series) will be supplied with anti-rust oil.This oil is not lubricant, when Ball Screw operates, lubricant should be applied. If there is no specific instruction, KSS would recommend our original grease(MSG No.2) as standard lubricant. Please feel free to contact us.

●Others

PSR/PSRT series(Standardized Precision Rolled Ball Screws) provide 3 types of Ball Nut profile. Return-plate style and End-cap style are our standard. In addition Internal-Deflector style as Compact Ball Nut is also in stock. So you can pick one of them based on your design.
